G3ARCH.COM

FIRM PROFILE

G3 provides high quality architectural and interior design solutions to corporations, institutions, developers, and property owners. We work with our clients to translate their needs and vision into exceptional solutions. As architects and designers, **we strive to uphold traditions of great design, while continuously pushing the boundaries of the future.** Our team of professionals has been working in the field for a long time, some of which are going on **40 years in the industry.** We take great pride in our work, in the quality of our design solutions, in the comprehensiveness of our construction documents, and in our ability to manage the entire project process. We use our expertise to uncover the full potential of every challenge we face, in every project.

G3 is big enough to handle the largest of tasks, but small enough to bring senior-level staff well-versed in all aspects of design and construction to every single project.

THE G3 VALUE PROPOSITION

In our wide experience executing all types of projects, G3 has learned to **“think like an owner.”** We recognize that cost and time are as critical, if not more so, as design. Because of this, G3 develops solutions for managing both cost and time at the outset of every project.

The value we add through the utilization of this approach enables you to maximize your asset – whether a site, building, office lease or residence - **within your budget.** We do this without resorting to “value engineering” or other post-design cost adjustment measures, and the attendant cost and time lost with such activities.

Renaissance Pilates - Holmdel, NJ

ATTENTION TO DETAIL

Our senior project managers are registered architects whose rigorous training is put to use in **every project we undertake**. While the importance of listening carefully to our clients cannot be over-emphasized, the value of **experience and training** in developing and realizing a project is equally important.

LISTENING TO OUR CLIENTS

Our work is **based on our client's needs and desires rather than a single style**. We ask a lot of questions, listen carefully, and advocate for our clients in our dealings with contractors and suppliers. Truly understanding the reasons that drive a client's preferences and requests allows us to fulfill and exceed their expectations.

Il Mulino - Miami, FL

LOGICAL & APPROPRIATE PLANNING

We are passionate about designing spaces that **harmonize with their environments**. We strive to create buildings and interiors that fit, that respond to their context and enliven it. When planning interiors, we begin by studying the building's rhythmic character and existing geometry so that we can maximize the opportunities available to the design and minimize any inherent obstacles. In doing so, we are able to create a **whole that is greater than the sum of its parts** – a solution with a real sense of place, and one that ultimately feels right.

COMMITMENT TO CLIENT SATISFACTION

At G3, **we understand that we are only as good as our last job**. We are committed to your satisfaction. Whether it's providing considered option in our design work or standing beside you through the thick of construction completion, we focus on addressing your your needs promptly and thoroughly, and on surpassing your expectations. Because, for us, a great project is one with a satisfied client.
